

S1701

POVERTY STATUS IN THE PAST 12 MONTHS

2007-2011 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Ravenna city, Ohio				
	Total		Below poverty level		Percent below poverty level
	Estimate	Margin of Error	Estimate	Margin of Error	
Population for whom poverty status is determined	11,605	+/-149	2,534	+/-598	21.8%
AGE					
Under 18 years	2,595	+/-253	948	+/-329	36.5%
Related children under 18 years	2,589	+/-256	942	+/-331	36.4%
18 to 64 years	7,338	+/-279	1,478	+/-334	20.1%
65 years and over	1,672	+/-184	108	+/-50	6.5%
SEX					
Male	5,829	+/-229	1,275	+/-336	21.9%
Female	5,776	+/-247	1,259	+/-329	21.8%
RACE AND HISPANIC OR LATINO ORIGIN					
One race	11,215	+/-225	2,363	+/-569	21.1%
White	10,358	+/-378	2,055	+/-566	19.8%
Black or African American	813	+/-308	307	+/-279	37.8%
American Indian and Alaska Native	16	+/-32	0	+/-89	0.0%
Asian	28	+/-37	1	+/-2	3.6%
Native Hawaiian and Other Pacific Islander	0	+/-89	0	+/-89	-
Some other race	0	+/-89	0	+/-89	-
Two or more races	390	+/-157	171	+/-123	43.8%
Hispanic or Latino origin (of any race)	172	+/-106	63	+/-82	36.6%
White alone, not Hispanic or Latino	10,242	+/-398	2,040	+/-565	19.9%
EDUCATIONAL ATTAINMENT					
Population 25 years and over	7,610	+/-324	1,150	+/-286	15.1%
Less than high school graduate	1,189	+/-218	248	+/-126	20.9%
High school graduate (includes equivalency)	3,123	+/-344	405	+/-138	13.0%
Some college, associate's degree	2,232	+/-314	425	+/-162	19.0%
Bachelor's degree or higher	1,066	+/-236	72	+/-53	6.8%
EMPLOYMENT STATUS					
Civilian labor force 16 years and over	6,269	+/-375	867	+/-282	13.8%
Employed	5,288	+/-409	510	+/-217	9.6%
Male	2,578	+/-274	237	+/-165	9.2%

Subject	Ravenna city, Ohio				
	Total		Below poverty level		Percent below poverty level
	Estimate	Margin of Error	Estimate	Margin of Error	Estimate
Female	2,710	+/-279	273	+/-142	10.1%
Unemployed	981	+/-236	357	+/-215	36.4%
Male	684	+/-172	227	+/-130	33.2%
Female	297	+/-118	130	+/-104	43.8%
WORK EXPERIENCE					
Population 16 years and over	9,304	+/-286	1,600	+/-344	17.2%
Worked full-time, year-round in the past 12 months	3,542	+/-351	54	+/-49	1.5%
Worked part-time or part-year in the past 12 months	2,493	+/-301	727	+/-247	29.2%
Did not work	3,269	+/-332	819	+/-217	25.1%
All Individuals below:					
50 percent of poverty level	1,459	+/-554	(X)	(X)	(X)
125 percent of poverty level	3,440	+/-638	(X)	(X)	(X)
150 percent of poverty level	4,260	+/-624	(X)	(X)	(X)
185 percent of poverty level	5,115	+/-617	(X)	(X)	(X)
200 percent of poverty level	5,341	+/-642	(X)	(X)	(X)
Unrelated individuals for whom poverty status is determined	3,245	+/-356	990	+/-268	30.5%
Male	1,763	+/-299	600	+/-220	34.0%
Female	1,482	+/-208	390	+/-129	26.3%
Mean income deficit for unrelated individuals (dollars)	3,899	+/-793	(X)	(X)	(X)
Worked full-time, year-round in the past 12 months	1,098	+/-232	11	+/-19	1.0%
Worked less than full-time, year-round in the past 12 months	834	+/-231	393	+/-195	47.1%
Did not work	1,313	+/-240	586	+/-172	44.6%

Worked less than full-time, year-round in the past 12 months	+/-14.3
Did not work	+/-10.1
PERCENT IMPUTED	
Poverty status for individuals	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2007-2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An 'L' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An 'L' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An 'U' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
